Great news for all families!

The NC legislature recently voted to expand the NC Opportunity Scholarship starting next school year. This is the school voucher program that provides state funding that families can use for private school tuition.

What does this expansion mean?

- *There is no income eligibility limit. Everyone is eligible to receive some funding that will be awarded on a sliding scale.*
- The state has doubled funding for the program, meaning more students will receive vouchers.
- Everyone must apply to be considered. The application period will open February 1st.
